Mums from Minnesota

The Home of Better-Grown and Sure-to-Bloom Mums

WE SPECIALIZE. We grow only Garden Mums and we grow them well. Our very modern establishment is located in southern Minnesota and has been built especially for the growing of better Garden Mums.

Dependable blooming dates, descriptions and growth data are recorded each year from actual observations in our own test gardens. This enables us to offer only the newest and most dependable varieties.

You can be sure of better-grown, better-packed and sure-to-bloom Mums when you order from us. Plants will be ready and available from February 15 to June 15.

MUMS AS CHRISTMAS GIFTS

Solve your Christmas shopping problems by giving "MUMS FROM MINNESOTA" to friends and relatives. It's simple! Avoid the crowds! Just make your selection from this catalog at home and mail it to us. That's all you have to do. We will send your friends a gift card at Christmas-time giving the names of the plants you have chosen to be sent at spring-planting time. The Mums will be sent out postpaid in the spring, all ready to start growing in their gardens. Your friends will truly appreciate your thoughtfulness in choosing "MUMS FROM MINNESOTA" for their Christmas gift.

LET US MAKE YOUR SELECTION

If you prefer to have personal, professional help in selecting the varieties for your particular needs, let us make your selection. Send us the amount you wish to spend for GARDEN Mums, tell us what color and types you prefer—whether for cutting or garden display, whether early, late or midseason varieties—and we will select the best in our large collection of over 200 varieties. You save approximately 30% by having us select your Mums.

You will be thrilled by the fine plants you receive. All will be labeled and SURE-TO-BLOOM.

KODACHROME SLIDES

We will lend to any reliable group, a set of Kodachrome slides of Mums that makes an excellent free program for garden clubs or other organizations having a projector. This set is sent free and contains more than 100 35-mm. slides. These full-color pictures depict individual flowers, borders, garden and field scenes and artistic arrangements. A short descriptive text accompanies the slides, which makes the showing time about one hour.

If your group is interested in this set, specify your meeting date, writing us at least 30 days in advance (60 days in spring and fall) and giving us an alternate date if possible. We then confirm your reservation. The slides will reach you ahead of your meeting date, and we ask that you return them promptly because other groups request them also. We supply return labels and postage.

We are sure that a program on Mums will be enjoyed by all. For your reservation write to

Our Fall Mum Show

"The Mums are blooming" has become a long-awaited and familiar greeting to thousands of Mum-lovers here in Minnesota and throughout the United States. When the days cool down and the leaves begin to turn, thousands of people all over the country take their scheduled trip to Faribault to see the Mums in all their glory.

Here at The Lehman Gardens in Southern Minnesota you can see 100,000 Mum plants in our large, unprotected fields. During the late fall these fields are transformed into ribbons of colors and are a magnificent sight. However, it is not every year that we are favored with a late fall. To beat the elements, we have constructed ten very large beds in which we grow five plants each of over 500 varieties. These beds are protected and maintained through the entire show. Here you can see all varieties blooming side by side and can check heights, blooming dates, etc. Our very first varieties begin to bloom about mid-August. By mid-September a great many of the earlier kinds are in full bloom. Between September 25 and October 10 is usually when the flowers are at their best. We suggest that you come at the time you would want your Mums in full bloom and check the varieties that are in full bloom at that time. Also in these outdoor beds are many of our seedlings—the Mums of Tomorrow—in different stages of selection. Each variety that is selected from a planting of seedlings is grown and tested for four or five seasons to be sure it is worthy of naming and introduction.

In case of bad weather (and we have it in Minnesota), we maintain a bounteous display of Mums in our five greenhouses. The first two greenhouses are replete with rows of tables running the full length of the buildings. On these are displayed thousands and thousands of beautiful Mum plants in every conceivable color. A sign advising "Don't Miss This!" directs one to the third greenhouse. Here, indeed, is a breathtaking sight! The entire greenhouse has been transformed into an outdoor living room. The effect is startling, for great care has been exercised in the blending of harmonizing colors. All varieties are labeled, and many folks come each fall to pick out their varieties for the next season.

No matter the day or the weather—any time between September 15 and November 1 is THE time to come to see the Mums. The display is maintained entirely for your pleasure, and we hope you, too, can come when "the Mums are blooming."

HEMEROCALLIS (Daylilies)

Over the past twenty years we have collected and hybridized some of the finest Daylilies in existence. In order to make room to carry on our hybridizing program, we are offering 20 top-notch Daylilies at extremely low prices. If you are at all interested in securing a fine collection of these wonderful perennials, this is your chance to buy them at unheard-of low prices.

CLEMATIS

Since the introduction of the large-flowered hybrid varieties from Europe, the Clematis is rapidly becoming one of the leading vines in America. These new hybrids have spectacular flowers and glorious colors. Most of them are practically everblooming. They can be grown on trellises, arbors or posts, or can be left to ramble over an old stump or rock wall.

We find that an east or south exposure is best. They prefer a rich soil and can take a lot of water, provided the drainage is perfect. The addition of peat moss, leaf mold or well-rotted manure mixed with the planting soil is ideal. We find that the liberal use of bonemeal is the best fertilizer. We do not think it advisable or beneficial to add lime to the soil in the area between the Ohio and Missouri Rivers. Most of the soil in this area contains sufficient lime for Clematis, and then too, the water supply for the most part is hard and contains

considerable lime to keep the plants happy. In areas where Azaleas and Dogwood flourish, it may be necessary to use lime.

A mulch of grass clippings, straw or sphagnum moss about 2 or 3 inches deep at the base of the plant will keep the soil cool during the hot summer and keep the plants almost ever-blooming.

There are no insects or diseases that trouble Clematis in the North. They are perfectly hardy and make excellent cut flowers. Planting can be done in the spring. The plants we send out are one year old, pot grown, and should be planted 3 to 4 inches deeper than they were in the pot. This is important, and perhaps the reason for many failures with Clematis is too shallow planting. Our collection now consists of over 90 varieties, and we are herewith listing some of the most spectacular and easy-to-grow kinds.

BARBARA JACKMAN. Soft violet-pink with a deep carmine-red stripe down the center of each petal. Prominent white stamens. June to August. Medium growth, 7 to 8 feet. \$2.00.

BEE'S JUBILEE. New from England. A greatly improved Nelly Moser with deeper pink petals and more pronounced red bars. Outstandingly good, 7 to 8 feet. June to September. \$3.00.

CANDIDA. Large flowers of the purest white, abundantly produced from midsummer to frost. Plant vigorous and sturdy, climbing to 10 feet. \$1.75.

COMTESSE DE BOUCHARD. In our estimation the closest approach to clear pink of all the hybrid Clematis. The color is a clear satiny rose. Flowers in abundance from July until September. Neat growing habit, up to 7 or 8 feet. \$2.00.

CRIMSON STAR. We think this is the finest of all hybrid red Clematis. Large, clear crimson flowers with pointed petals. Very free flowering, blooming from July to September. The variety we offer is true Crimson Star. \$2.00.

DUCHESS OF ALBANY. Delightful deep pink, trumpet-shaped flowers all summer long. Plant delicate but very vigorous and winter hardy. Grows 10 to 12 feet. June to September. \$3.00.

DUCHESS OF EDINBURGH. Double, gardenia-like, cream-white flowers with a chartreuse overcast. Very unique and desirable. In bloom from mid-July on. \$1.50.

ELSA SPAETH. A lovely clear dark blue with dark stamens. Petals are wide and overlapping. Medium height, to 7 feet. July to September. \$2.00.

ERNEST MARKHAM. A very strong-growing Clematis in red shades. Petals wide, rounded at the ends, of bright cerise-red. Perhaps the best of all the light reds. July blooming. \$1.75.

GLADSTONE. Beautiful lilac-blue, very large, with white stamens. Vigorous and free flowering. June to August. \$1.75.

GYPSY QUEEN. Richest dark purple with velvety sheen. Larger flower and darker than Jack. August to October. Strong grower, from 10 to 12 feet. \$2.00.

HAGLEY HYBRID. A very new variety from England. The blooms are an exquisite shade of deep shell-pink with attractive brown stamens. Vigorous and very free flowering. A must for all gardens. 10 to 12 feet. June to September. \$2.50.

HENRYI. The giant among white Clematis. Large, paper-white, long-pointed petals and chocolate-brown anthers. In bloom from July to frost. Vigorous growth, 8 to 10 feet. \$1.75.

HULDINE. The translucent blooms are pearly white with a bluish undertone. Strong growing, up to 12 feet. Free flowering from July to October. \$1.75.

CLEMATIS JACKMANI

CLEMATIS, continued

JACKMANI. The most popular Clematis in America. Seen throughout the length and breadth of the land with its masses of four and five-petaled, deep purple flowers in July. Extremely vigorous and hardy. 8 to 10 feet. \$1.50.

JACKMANI RUBRA. A strong-growing crimson-red that occasionally produces double flowers. July to September. Grows 10 to 12 feet. \$2.00.

LADY BETTY BALFOUR. This is the finest deep blue in our collection. Color is a very velvety deep navy-blue with a center of white anthers. Very vigorous and free flowering. Plant Lady Betty Balfour and you plant the best in deep blue Clematis. Height to 12 feet. \$1.75.

LORD NEVILLE. Rich deep blue flowers, perfectly shaped, with the edges of the sepals attractively crimped. Strong growing habit, up to 7 or 8 feet. June to September. \$2.00.

MME. BARON VEILLARD. An extremely vigorous and satisfactory pink Clematis. Color is a clear lilac-rose, becoming much deeper in the fall as the days become cooler and shorter. In continuous bloom from June to September. Very sturdy growth from 10 to 12 feet. \$1.50.

MME. CHOLMONDELEY. An extremely early-flowering variety of wisteria or delphinium-blue. In bloom from June to September, on moderately vigorous plants to 8 feet. \$1.75.

MME. EDOUARD ANDRE. One of the older red Clematis, with smaller flowers on moderately vigorous plants. \$1.50.

MME. LE COULTRE. New from England. One of the finest whites in cultivation. Very large, pure white flowers in abundance from June to September. 8 feet. \$2.50.

NELLY MOSER. The very earliest of all Clematis to bloom. The first flowers usually appear right after the Darwin tulips bloom and continue most of the summer. Color pale mauve-pink with a red stripe down the center of each petal. Moderate growth to 8 feet. \$2.00.

PRESIDENT. One of the most gorgeous of the deep rich reddish plum-colored varieties. Flowers are large, with extremely pointed petals and brilliant color. Moderate growth up to 7 to 8 feet. June. \$1.75.

RAMONA. Our favorite of all the medium blue Clematis. Flowers exceptionally large (6 to 8 inches across), with wide, heavy-textured petals. Free and dependable bloomer from July until frost. Plant vigorous, climbing to 10 feet. \$1.75.

TANGUTICA. A strong-growing variety producing masses of bright yellow, lantern-shaped flowers from midsummer until frost. The later flowers are intermingled with the attractive seed heads of the earlier flowers and present quite a charming picture. A native of Siberia and an ironclad beauty. The only hardy yellow Clematis in existence. July to October. \$1.75.

TEXENSIS. Charming bright scarlet, pitcher-shaped flowers on 6-inch stems, above the glaucous blue-gray foliage. A lovely vine to plant where one can watch the hummingbirds feeding on the nectar. \$2.00.

TILlicum. New 1961. An enormous flower of clear deep lavender, which during the heat of midsummer turns to clear ice-blue. In constant bloom from June to October. Growth 10 to 12 feet. A wonderful new addition. \$2.50.

VILLE DE LYON. Very free-flowering carmine-red with darker stripe in the center of each petal. Blooms from July to September and grows to a height of 8 to 10 feet. \$1.75.

WILLIAM KENNETH. Very large, deep cool lavender flowers produced in abundance from June to September. \$1.75.
